

*Censorship is telling a man he can't have a steak just because a baby can't chew it.*

—Mark Twain

*Men occasionally stumble over the truth, but most of them pick themselves up and hurry off as if nothing ever happened.*

—Winston Churchill

### Unnecessary Bit of Trivia or Major Change Maker?

**Q:** With so many needs that Christians can meet, why bother anyone about some information that doesn't do any good or solve any problems, but only complicates things?

**A:** Bringing forth this truth edifies, exhorts and comforts people. Knowing God's real cosmos changes personal lives and the course of history as its truth potentially motivates beliefs, thinking and living.

Learning the true cosmos **provides a strong witness that the Bible is Truth** which leads people to dive deeper into God's Word. This Biblical cosmos news **compels unbelievers to "believe or beLIEve"** which **calls for the decision to receive Jesus Christ and eternal life**. Knowledge of this truth **enables believers to pull scoffers out of error with answers** which **produces eternal rewards at the believers' judgment** and **the joy of having new believers in God's family**. Knowing from where our physically close Creator superintends our lives helps us **conceptualize an emotionally closer relationship with Him**. A concrete understanding of the abyss and lake of fire (See 51 descriptors, p. 156) **motivates life changes** in our hearts, lifestyles and purposes. The prophetic signs of the Bible overhead **comfort us** seeing God has been directing things for millennia and so will fulfill the rest of the prophecies that will bring His faithful to Him safe and face-to-face.

## Through the Cosmos to the Creator

While human wisdom tampers with the Creator's DNA code and invents chemicals which destroy environment and health, **a new honor for creation's God and nature advances proper approaches to science and problem solving that bring success** such as natural permaculture vs. devastating industrial agriculture. Recognizing the real cosmos **encourages awareness, critical thinking and personal research into other beliefs from false teaching.** Our finite "snow globe" cosmos with no place of escape or any fictional, saving space aliens **defines humanity as appointed caretakers of the world.** This singular, small earth with a firmament **negates evolution from a big bang and argues for the Biblical transcendent value and inalienable rights of humanity** and so **inspires honor, cooperation and peace.**

Truth **generates the abundant life Jesus intended for all.**

The way things are going now on the alleged random, purposeless, evolved globe we are losing the protections of morality based on Truth. Little wonder that without these lessons of the real cosmos we pursue useless and harmful things. Surely the same sins abounded back when everyone knew the earth is flat, but to bring this out today can **awaken and turn many people to righteousness in Christ.** Because the Bible is truth, let's choose the truth, live the truth and share the truth about the Creator's cosmos and our responsibility to nurture each other and our environment until the better world comes at Jesus Christ's return when

they shall not hurt nor destroy in all my holy mountain: for the earth shall be full of the knowledge of the LORD, as the waters cover the sea.  
—Isa 11:9
